

Northhill Neighbourhood Plan
Project Team Meetings
29.06.16 + 11.07.16

Note : these were two short meetings in preparation for the second and third SG site assessment and site preference workshops on 04.07.16 and 12.07.16

1. HP presented completed Master Map showing each site assessed with different colour coding for “ public consultation” , SG call for sites and CBC call for sites indicated
2. PS and SB showed instruments designed to enable SG members to rate sites and draw up a list of preferred sites against positive criteria. These were discussed and broadly accepted with minor amendments which were carried out in time for the second meeting
3. Guidance on using these was agreed and copies to be printed by PS for workshops. SB will provide site synopses and HP master map and site maps and the original site assessment docs. RC will provide enlarged flood maps.
4. PS reminded colleagues that he could not chair these meetings nor make any decisions because of a possible perceived conflict of interest. He would however act as scribe.
